

It's that time of year for us to plan supporting our ASQ Milwaukee Outreach activities. We need your help! I have a brief listing of the Outreach activities that need ASQ Milwaukee Chapter volunteers to support.

Please review the following to choose which vents you would like to participate. **Reply to me jhankwitz@mac.com as soon as possible to let me know which events you can help out with.** Also, let me know if you need additional information on what is involved in your participation. Previous participants have always stated that their experiences were very enjoyable and worthwhile.

Outreach Opportunities for 2019

Contact John Hankwitz – jhankwitz@mac.com

Future Cities – 1/26/2019 – MSOE Kern Center 8 AM – 12

Middle School STEM competition that encourages team building, planning, communication, model design, development, creation, and presentation skills. This year's theme is "Powering our City". ASQ Milwaukee volunteers spend a half day reviewing and judging up to 72 entries to determine which is the "Most Futuristic City" and provides a trophy to the winner.

Rube Goldberg – 3/1/2019 – WCTC 8 AM – 3 PM

High School STEM competition focused on simple machine knowledge that encourages developing a funny theme related story to describe the mechanical steps involved used to make a very simple task very complex. This year's challenge is to "Put money in a piggy bank in 20 or more steps".

Hartford High Career Fair – 3/13/2019 4:00 – 6 PM

This High School event provides High School students and their parents with what types of careers are available and opportunities to achieve them. ASQ Milwaukee members provide students and parents from Hartford High School with knowledge relating to a future in the Quality field and the types of jobs available.

Washington County Career Fair – 3/14/2019 7:30 AM – 2 PM

This event provides High School students with what types of careers are available and opportunities to achieve them. ASQ Milwaukee members provide students from every High School in Washington County with knowledge relating to a future in the Quality field and the types of jobs available.

Badger State Science & Engineering Fair – 3/16/2019 – UW-M 8 AM – 12

This is the Statewide Science Project competition. ASQ Judges award a pair of \$500 scholarships to two teams that exhibit the most effective use of basic quality tools in their Science Projects.

Rube Goldberg – 4/12/2019 – WCTC 8 AM – 12

Middle School STEM competition focused on simple machine knowledge that encourages developing a funny theme related story to describe the mechanical steps involved used to make a very simple task very complex. This year's challenge is to "Flip a switch in 8 or more steps".

Rube Goldberg – 5/10/2019 – MSOE Kern Center 8 AM – 12

Middle School STEM competition focused on simple machine knowledge that encourages developing a funny theme related story to describe the mechanical steps involved used to make a very simple task very complex. This year's challenge is to "Flip a switch in 8 or more steps".

Please email me jhankwitz@mac.com if you are able to participate in any or all of these events.

Your help and support is needed.

Many thanks.
